SUMMARY

Highly motivated and analytical recent graduate with a Bachelor's degree in Informatics from Universitas Teknokrat Indonesia. Proficient in programming languages such as Java, Python, and JavaScript, I also have experience in database management systems and SQL. Skilled in problem-solving and a team player, I actively contribute to collaborative work environments. Graduating with a **GPA of 3.74** demonstrates my consistent academic achievements. I am enthusiastic about taking on challenges and making meaningful contributions to organizational growth with my skills.

EXPERIENCE

Supervisor Quality Control, PT Adikarya Gemilang
Lampung / 2017 - 2019

As a Supervisor Quality Control at PT Adikarya Gemilang, my main responsibilities included:

- Oversaw and managed the Quality Control team to ensure products met established quality standards.
- Conducted regular quality inspections to ensure products met technical requirements and specifications.
- Prepared quality reports and data analysis, and provided recommendations for necessary improvements.
- Collaborated with relevant departments to enhance production processes and implement preventive actions.

Practical Fieldwork, Department of Bina Marga Bina Konstruksi
Lampung / 2021

During my Practical Fieldwork at the Department of Bina Marga Bina Konstruksi Lampung Province (BMBK), my main responsibilities included:

- Gained practical fieldwork experience in the construction and Human Resources fields.
- Implemented Practical Learning in areas such as troubleshooting, networking, graphic design, and office operations.

ACHIEVEMENTS

- Graduated with a cumulative GPA of 3.74, demonstrating consistent academic excellence throughout my studies.
- Champion, Software Development - The Most Inspirational Team, Finalist in Gemastik 14
- Finalist, Unity 10 Software Development Division, Universitas Negeri Yogyakarta
